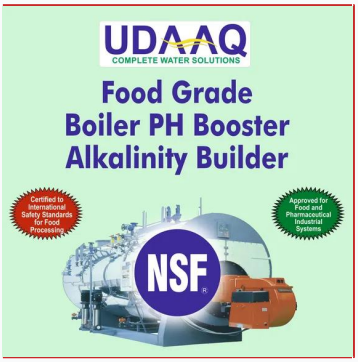
Food Grade Boiler Alkalinity Builder

SKU: WT1462(35) | Range: 35 Kg Pack - Alkalinity Builders

The control of water pH and alkalinity levels is very important in low- and medium-pressure boilers to reduce corrosion. Depending on the natural feed water alkalinity it is often necessary to add an alkalinity builder in order to establish the correct boiler water chemistry by raising the feed water pH which helps to protect the system from acid corrosion. Our unique formulation is an all-in-one precise blend of alkalinity builder softening agent and synthetic organic sludge conditioner. It helps to protect your boiler system from acidic corrosion as it is designed specifically for low hardness softened water and demineralized Water.



KEY PRODUCT FEATURES

- Food Grade Boiler Water Treatment
- NSF Certified for Food Processing Boiler Treatment
- Environment-friendly and Non-Toxic Boiler Treatment
- Economical and Ready to use in 35/50 KG Pack
- High Temperatures and High-Pressure Stability
- Easy to handle with Rapid Action for Instant solution
- Complete Boiler Protection to enhance system life

TECHNICAL SPECIFICATIONS

Form: Liquid
Packing: 35KG / 50KG HEDP Polycan
HSN: 38249022
Refer to Product Literature for Complete Product Specification
