COD Vial Refill Set

SKU: APCODR2 | Range: 0 - 1500 PPM (100 Test Refill Set)

For easy and simple on-site testing of COD (Chemical Oxygen Demand) we have specially designed refill packs for COD Vials. Our refill packs are designed for COD Vials that are based on digest closed micro reflux COD measurement according to the Standard Method (ISO 15705:2002) and also help meet USEPA standards. It makes the process of COD Testing easier and safer than the traditional open reflux titrimetric method. These refills are for all the vials of standard size 16MM that are used in COD that follows international standard methods for COD testing.

KEY PRODUCT FEATURES

- For Standard Vial Size (16MM)
- Complies to ISO and EPA Standard Methods
