## PRODUCT DATA SHEET

---

### 1 PRODUCT DETAILS

PRODUCT NAME                      Conductivity / TDS Epoxy Laboratory Electrode with Temperature  
PRODUCT CODE                      AMECNLEP

### 2 TECHNICAL DETAILS

Model                                      AMECNLEP  
Parameter                                Conductivity / TDS  
Cell Constant 'K'                      K = 1  
Built -in Temp. Sensor                PT 100  
Operating Temperature                0 to 70 Deg C  
Body Material                          Plastic  
Sensor Material                        Platinum  
Meter Connection                      BNC & 3.5mm Jack  
Max Pressure (Bars)                  NA  
Cable Length                            1M

### 3 DIMENSIONAL DETAILS
