

Hydrogen Peroxide Test Kit

SKU: AEHP | Range: 5 - 100 & 25 - 500 PPM (Mg/L)

The corrosiveness of process water due to hydrogen peroxide depends on the amount of dissolved oxygen that is produced. Oxygen corrodes iron-containing metals. Hydrogen peroxide is used as a disinfectant. H₂O₂ is used to disinfect drinking water. It is also used to combat excessive microbial growth in water systems and cooling towers. AQUASOL AEHP - HYDROGEN PEROXIDE TEST KIT helps to estimate the concentration of H₂O₂ in water.

KEY PRODUCT FEATURES

- Onsite Field Test Kit
- Easy To Follow Procedures
- Based on International Standards (APHA/AWWA/IS)
- Rapid and Accurate and Reliable results
- Available in portable carry case
- Tested and Validated by leading Laboratory
- Economical and long shelf life.

TECHNICAL SPECIFICATIONS

Product Code: AEHP

Range: 5 - 100 & 25 - 500 PPM (MG/L)

No of Tests: 300

HSN: 90275090

Packing: Plastic Case
