Ozone Test Kit

SKU: AEOZ3H | Range: 0.25 - 5.0 PPM (Mg/L)

Ozone is a strong oxidizing agent and is used as a biocide in the disinfection of water. It is also used in various sterilization processes in the food and beverage and pharmaceutical industries. Ozone is very effective in removing bad odours and flavours because it breaks down into oxygen which improves taste and other qualities of water. The amount of Ozone required in a water system is determined by Ozone demand and contact time of the water. Our AQUASOL AEOZ3H - OZONE TEST KIT available as DPD method and the kit gives very reliable results. The end point is very sharp and easily discernable by the user and even a shop floor worker will be able to get desired results with our test kit.

KEY PRODUCT FEATURES

- Onsite Field Test Kit
- Easy To Follow Procedures
- Based on International Standards (APHA/AWWA/IS)
- Rapid and Accurate and Reliable results
- Available in portable carry case
- Tested and Validated by leading Laboratory
- Economical and long shelf life.

TECHNICAL SPECIFICATIONS

Product Code: AEOZ3H
Range: 0.25 – 5.00 PPM (MG/L)
No of Tests: 100
HSN: 90275090
Packing: Plastic Case
