Cyanuric Acid Test Kit

SKU: AE455 | Range: 0 - 200 PPM (Mg/L)

The Cyanuric Acid Test Kit is designed for quick and easy determination of cyanuric acid levels in swimming pool water. Cyanuric acid acts as a chlorine stabilizer and helps protect available chlorine from rapid degradation caused by sunlight. The kit uses a simple visual test method and does not require any instrument, making it suitable for routine on-site monitoring. Regular testing helps maintain the optimum stabilizer level for effective chlorination, proper disinfection and improved pool water quality. Ideal for use in swimming pools, hotels, clubs, resorts, water parks and by pool maintenance professionals.

KEY PRODUCT FEATURES

- Onsite Field Test Kit
- Easy To Follow Procedures
- Based on International Standards (APHA/AWWA/IS)
- Rapid and Accurate and Reliable results
- Available in portable carry case
- Tested and Validated by leading Laboratory
- Economical and long shelf life.
