Food Grade Boiler Water Softening Agent

SKU: WT4010(35) | Range: 35 Kg Pack - Phosphate Based

Boiler feed water plays a very important role for the friction less operation of a boiler as breakdowns and downtime can be avoided or reduced by regular feed water treatment. Our Phosphate Based softening agents treat incoming boiler water hardness by sequestering both calcium and magnesium from the feed water preventing its premature deposition and scale formation. We recommend its use with sludge conditioners and dispersants anti foam and oxygen scavengers to provide more effective treatment.

KEY PRODUCT FEATURES

- Food Grade Boiler Water Treatment
- NSF Certified for Food Processing Boiler Treatment
- Environment-friendly and Non-Toxic Boiler Treatment
- Economical and Ready to use in 35/50 KG Pack
- High Temperatures and High-Pressure Stability
- Easy to handle with Rapid Action for Instant solution
- Complete Boiler Protection to enhance system life

TECHNICAL SPECIFICATIONS

Form: Liquid
Packing: 35KG / 50KG HEDP Polycan
HSN: 38249022
Refer to Product Literature for Complete Product Specification
