Fluoride Test Kit

SKU: AE210 | Range: 0.1 - 2.0 & 1 - 20 PPM (Mg/L)

Fluoride occurs naturally in all types of water. Typically surface waters and sea waters have low concentration of fluoride while groundwater may contain high levels of fluoride as it may be exposed to many inorganic fluoride-containing minerals. Fluoride salts are also frequently encountered in many industrial applications. Fluoride is important in drinking water as excessive fluoride cause mottling. A permissible limit has been laid down for fluoride therefore analysis of fluoride is mandatory in drinking water. Our AE210 - FLUORIDE TEST KIT is one of its kinds and works on the titrimetric principle.

KEY PRODUCT FEATURES

- Onsite Field Test Kit
- Easy To Follow Procedures
- Based on International Standards (APHA/AWWA/IS)
- Rapid and Accurate and Reliable results
- Available in portable carry case
- Tested and Validated by leading Laboratory
- Economical and long shelf life.

TECHNICAL SPECIFICATIONS

Product Code: AE210
Range: 0.1 - 2.0 & 1 - 20 PPM (MG/L)
No of Tests: 500
HSN: 90275090
Packing: Plastic Case
