Food Grade Ion Exchange Resin Cleaner

SKU: WTRESCLN(35) | Range: 35 Kg Pack - Resin Cleaner

Ion exchange resins can become polluted or contaminated with suspended solids slime bacteria and numerous organic or microbiological matters over a time period. Fouling of the resin by iron and organic build up cannot be removed by normal regeneration procedures and can cause gradual performance losses. Our Food grade resin cleaner is especially designed to remove bound iron from iron fouled resins and prevent accumulation of fouling conditions to extend the resin life significantly. It will ensure optimum exchange capacity and also keep the softener components clean when used on a regular basis.

KEY PRODUCT FEATURES

- Food Grade Resin Cleaner
- NSF Certified for Food Processing Ion Exchange Resin
- Environment-friendly and Non-Toxic Resin Treatment
- Economical and Ready to use in 35/50 KG Pack
- High Tolorence and Chemical Stability
- Easy to handle with Rapid Action for Instant solution
- Complete Resin Cleaning to Enhance system life

TECHNICAL SPECIFICATIONS

Form: Liquid
Packing: 35KG / 50KG HEDP Polycan
HSN: 38249022
