Molybdate Test Kit

SKU: AE309 | Range: 5 - 50 PPM (Mg/L)

Formulations containing molybdate are used as corrosion inhibitors in industrial water treatment. In particular molybdate finds application in closed recirculating systems such as water heating systems and chilled water systems. Since molybdates are widely used in water treatment and industrial processes testing molybdate is becoming increasingly important for effluents and industrial discharges. This AE309 - MOLYBDATE TEST KIT is a colour comparison one and can give accurate results in time.

KEY PRODUCT FEATURES

- Onsite Field Test Kit
- Easy To Follow Procedures
- Based on International Standards (APHA/AWWA/IS)
- Rapid and Accurate and Reliable results
- Available in portable carry case
- Tested and Validated by leading Laboratory
- Economical and long shelf life.

TECHNICAL SPECIFICATIONS

Product Code: AE309
Range: 5 - 50 PPM (MG/L)
No of Tests: 325
HSN: 90275090
Packing: Plastic Case
