Phosphate Test Kit

SKU: AE311 | Range: 0.1 - 10 PPM (Mg/L)

Orthophosphate is a commonly used corrosion inhibitor that is added to finished drinking water. It works by forming a protective coat inside pipes in the distribution systems and in customer homes to prevent lead from leaching into drinking water. The other name is phosphoric acid and it is used to control alkalinity/acidity in foods and beverages. It is a vital parameter for boiler cooling and process water treatment. This AE311 - PHOSPHATE TEST KIT is again based on colour comparison in simple and easy steps.

KEY PRODUCT FEATURES

- Onsite Field Test Kit
- Easy To Follow Procedures
- Based on International Standards (APHA/AWWA/IS)
- Rapid and Accurate and Reliable results
- Available in portable carry case
- Tested and Validated by leading Laboratory
- Economical and long shelf life.

TECHNICAL SPECIFICATIONS

Product Code: AE311
Range: 0.1 - 10 PPM (MG/L)
No of Tests: 500
HSN: 90275090
Packing: Plastic Case
