PH Test Kit

SKU: AE316 | Range: PH 6.0 - 9.0

pH is the measure of the hydrogen ion concentration in water. It denotes if the water is acidic or alkaline. When pH is 7 it is said to be neutral. Natural water range between pH 5.0 and pH 10.0 while sea water is near pH 8.3. Monitoring of pH becomes an important exercise for the growth and well being of fresh water species this is especially true for a closed water body viz. nbreeding pond pans or aquariums. Fresh water species thrive over a large pH range viz.6.0 9.5.The growth retards below 6.0 and below 4.0 most species are killed. Our AQUASOL AE316 - PH TEST KIT comprises of a universal indicator giving clear colours which match the colour chart perfectly. An extremely easy to use product it finds usage in almost all processes.

KEY PRODUCT FEATURES

- Onsite Field Test Kit
- Easy To Follow Procedures
- Based on International Standards (APHA/AWWA/IS)
- Rapid and Accurate and Reliable results
- Available in portable carry case
- Tested and Validated by leading Laboratory
- Economical and long shelf life.

TECHNICAL SPECIFICATIONS

Product Code: AE316
Range: PH 6.0 - 9.0
No of Tests: 500
HSN: 90275090
Packing: Plastic Case
