# About Us

Rakiro provides solutions for testing, measurement and water treatment for the process Industry. In past few years we have made a mark in the field of testing and have a strong presence in India as well as other parts of the world with a wide network of dealers & distributors. Also with a vast experience in the field of water treatment our chemical division specializes in chemical formulations required in the smooth running of various processes and helps improve the efficiency of production. We are truly invested in understanding our clients' needs and working with them to deliver high quality solutions, with continuously reviewing and improving our way of working. All our products are evaluated and approved by major institutes and authorities in India.

## Our Infrastructure

Our pragmatic workforce & state of the art manufacturing facility produces a wide range of Instruments & Field Test Kits for both microbiological & chemical analytical parameters. Our ERP system based operations help us to make majority of the product range available of the shelf. This helps all our clients in enhancing the pace of onsite Testing or Treatment & thus efficiently monitor a running process. We understand the importance of systems and processes for smooth functioning and thus we follow system driven operations. We have acquired ISO 9001:2015 certification for our Quality Management System (QMS).

Automized Production

Instrument Assembly

Quality Control

R&D Laboratory

## Our Team

For us leadership is not about glorious crowning acts. It's about keeping your team focused on a goal and motivated to do their best to achieve it.

Check & See  
The Water You  
Drink.

## Power to see the Invisible Danger Drinking Water Test

Water contaminated with bacteria is a major cause of water-borne disease in humans. Enteric diseases like diarrhoea, dysentery, typhoid, paratyphoid, gastroenteritis, cholera, etc. are caused by the tiny menaces viz bacteria.

Detecting these dangerous but unseen predators is quite a tough task. Normally it is the domain of the white coated microbiologist who works amidst sterile conditions and a lot of hush hush secrecy.

No longer! Modern science has now made testing so easy and convenient.

No laboratory! No hassles!! No hush hush secrecy!!! Just ChekNsee!

ChekNsee tests a group of bacteria, which are found in sewage. They are present in the intestine of man and animal and are generally

ChekNsee helps to check water from all kinds of sources viz.

- Taps • Purifiers • Coolers • Storage Tanks
- Rivers • Ponds • Springs

This extremely simple and convenient test can be carried out by anybody, anywhere i.e.

- Homes • Offices • Factories • Shops
- Banks • Hospitals • Hotels • Schools

Check your Water for  
harmful **Bacteria** easily.  
*Anytime... Anywhere...*

Do it yourself easily to check and see!

1. Media pouches & sterile bottle

2. Cut open both the pouches carefully

3. Pour the contents of both pouches into the bottle

4. Water upto the red arrow mark

6. Then observe the colour of liquid in bottle

If the Colour is Violet  
Water Is Potable

If the Colour Changes to Yellow  
Water Is Not Potable

Sr	Product Code	Product Description	No. of Tests / Pack
1	CNC2	Drinking water Test Kit ( Pack of 2 )	2
2	CNC10	Drinking water Test Kit ( Pack of 10 )	10
